

Stephan Flynn

On 3 Nov 1988, during routine Clearance Diver training at FDU(A), Shearwater, NS, LS Stephan Flynn was conducting a DSSCCD Rebreather dive between Lawlor's Island and Wreck Cove, McNabs Island Nova Scotia. Upon completing a dive for 23 minutes at 25 ft, LS Flynn and his partner surfaced at 1114. His partner was hoisted into the boat and when the crew turned to assist Stephan he had slipped beneath the surface. An immediate search was conducted and Stephan was found on the bottom with vital signs absent at 1632, 4 November 1988. He never recovered. A trophy is presented is honourably presented in his memory for the top Clearance Diver Student who has the highest academic achievement on each course - "Lest We Forget".
